EXPERIENCE

TD Lab • Experience Design Co-op

June 2020 - August 2020 | Kitchener, ON

Initiated and drove the research, design and implementation of TD Lab's first design system. Built a UI inventory in Sketch for 30+ scalable and accessible components, obtaining buy-in from all stakeholders.

Manulife • UX Design Co-op

September 2019 - May 2020 | Waterloo, ON

Led the product strategy, research, and design of Manulife's first engineering outreach web platform, *developer.manulife.ca*. Presented at weekly project status updates to software developers, designers and AVPs.

Connected • QA Automation Developer Co-op

January 2019 - May 2019 | Toronto, ON

Performed automated tests in Selenium WebDriver using Python to validate application performance, reducing the project backlog by 80%.

INVOLVEMENT

Midnight Sun Solar Car Team • Operations Manager

September 2018 - Present | Waterloo, ON

Leading a team of 10 designers to research, design and prototype the car's infotainment system. Collaboratively redesigned the team website (*uwmidsun.com*), boosting weekly site visits from 200 to 1400.

UW/UX • Engagement Lead

September 2019 - Present | Waterloo, ON

Co-organizing and facilitating introductory design workshops to teach 40+ aspiring designers visual design and prototyping basics.
